NOT JUST ANY ROOFER

WHAT OTHERS ARE SAYING

RECENT PROJECT

EXPERIENCE THE DIFFERENCE

JUST FOR LAUGHS

SHINGLE RECYCLING

ROOFING & EXTERIORS

Not just any roofer...

Weaver Roofing & Exteriors isn't just any roofer... we are your residential and commercial "exterior specialists". Many contractors today say, "I can do that..." or "Yeah I've done that before..." but don't really specialize in anything, or will figure it out as they go.

At Weaver we take the exterior of your home and business seriously. That's why we have a specialized team of experts to provide our customers the best in exterior service. Weaver is a certified Master Elite Contractor – a status that only 1% of roofers achieve – providing you with the best asphalt shingle roof warranty in the industry. When it comes to wood shingles, slate and standing-seam metal roofs – we've done hundreds of these projects since the roofing division began in 1983.

Do you have a low-sloped or flat roof on your home or business? Weaver is a certified Firestone rubber-roof installer having completed hundreds of roofs with a 100% quality rating from the manufacturer. Their inspectors know that when they're inspecting a roof installed by Weaver, they know it's going to be done right.

Does your home need an extreme makeover? Our expert craftsmen can turn your home into the envy of the neighborhood with new maintenance-free siding, windows, doors and trims. Not sure how to make it all come together? Our ASID designer and sales team can help you select the perfect combinations of colors, products and accent details to achieve the look you desire.

Now, you might be thinking, "I've heard many people say that they're an expert, but what do their customers actually say about the work they do?" Being an expert is the first step, but satisfied customers are where the rubber meets the road (or roof)!! We are blessed to have thousands of satisfied customers since Dad started the business over 35 years ago. Here are what two of our current customers are saying...

Cont...

Hello Randy,
"I recently had storm damage repairs completed by your company. A new roof, window, exterior door, and several feet of siding and capping were installed. You have something a lot of contractors don't... honest hard working employees. At no point in my experience did I feel for one second I was getting misled or taken for the lack of a better term. I'm a former Chesco resident relocated back to Delco so I know the difference in quality of people and workmanship. Tom Martin was the only estimator I had that listened and arrived fully prepared to give a concise proposal. Tom took the time to re-cap before leaving and when I received the proposal it was 100% complete unlike 2 others from the competition. The roof crew (Alan & Ervin) was timely, neat, and respectful of the neighbors etc. The only thing you heard from them was the sound of shingles coming off and going back on. Each day they left, you wouldn't know they were there. Then the siding crew (Eugene & Bill) these guys are perfectionists! I can't get over how good plain white siding can look when it's done right. Compared to what was there before. The new window and door look and operate perfect, they even cleaned the windows on their

way down the pole jacks (the wife loves these guys!) You run a real professional company with proper equipment and most importantly Skilled craftsmen. I have been a do it yourselfer and have been reluctant to use contractors due to the horror stories.

"You have something a lot of contractors don't... honest hard working employees."

Your guys changed my entire opinion - 30 years of skepticism changed in 3 weeks... Amazing !!! I know your sign will remain on my lawn and I will continue recommending Weaver to my family, friends, and neighbors."

Best Regards,
-Mr. R. Capuzzi

Tom,
"We are thrilled with the work that was done. The house looks fabulous with its new vinyl siding, windows, shutters, side roof, and porch posts! My wife says that the house really pops. It just grabs your attention. Passersby don't just glance at the house - they stare and admire it as they walk past.

To say that your team of (Eugene & Bill) is professional - is an understatement. Bill's new self-designed side roof over the back door is terrific. During the recent rain, we were finally able to open the door without getting wet. And the new door itself is not getting wet, which

is a major reason that the old door needed a replacement. This roof really accents that side of the house, which had been flat. I have purchased shutters for the windows on that side, so that the side will look complete.

Eugene's porch work was fabulous. He leveled the roof, replaced the rotted ceiling, installed white siding onto the ceiling, covered the fascia, and replaced the old supports with stylish posts. He cleverly sawed one non-supporting post lengthwise, so that he could mount it directly onto the brick wall vs. leaving a small gap.

The new windows look great. Some of the old windowsills were rotted and looked bad. The new windows have also reduced the level of outside noise. We are glad that we had decided to have the windows and siding done at the same time. The new work done by the Eugene/Bill Team is fabulous.

We look forward to receiving the window grills as they will accent the front of the house even more than all the great work that the pros already did.

Thanks to Weaver Roofing and Exteriors, we now live in a gorgeous home!
Keep up the Great Work!"

- Mr. & Mrs. Caldwell

Experience the Difference

~Satisfying customers for over 25 years.

~We understand your needs and have the experience to provide you with the best solutions at the best value.

~We employ the best people in the industry! 90% of roofing systems fail prematurely because of misapplication or poor installation, not product failure.

~Our professional employees are friendly, honest, hard working, and drug free.

~We will show up on time and finish the job on schedule. Quite simply, we do what we say we are going to do!

~Our service department can handle any emergencies in a timely manner. We are here to serve all your needs not just the big ones.

~We are GAF/Elk Master Elite Contractors, offering a 20 year leak-free guarantee. Something only 3% of contractors in the USA can say.

~Certified Firestone EPDM (rubber) Roof installers. We have installed hundreds of rubber roofs with our quality verified by independent Firestone inspectors.

~We have our own safety inspector and will perform your project with the best safety practices in the industry.

~We care about our environment and recycle all of our asphalt shingle waste.

Just For Laughs

Jenny was taking an afternoon nap on New Year's Eve before the festivities. After she woke up, she confided to Joe, her husband, 'I just dreamed that you gave me a diamond ring for a New Year's present. What do you think it all means?' 'Aha, you'll know tonight,' answered Joe smiling broadly. At midnight, as the New Year was chiming, Joe approached Jenny and handed her small package. Delighted and excited she opened it quickly. There in her hand rested a book entitled: 'The meaning of dreams'.

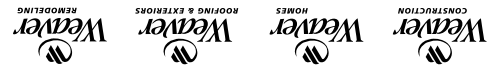

Razing the roof

Weaver is proud to be doing what we can to be kind to our environment. Here's one thing we've been doing since early 2010. It's called the "Asphalt Shingle Recycling Program," by which roofing shingles are recovered and recycled into hot mix asphalt. Of course, it's fantastic just for the fact that it's one more way to reduce waste going to landfills. Using recycled asphalt shingles in new pavement has been shown to improve resistance to wear and moisture; and decrease deformation, rutting and cracking. Shingles contain a large amount of asphalt binder, 19-36%. Therefore, even a small percent of shingles can lead to a significant reduction in the amount of new asphalt binder added to the mix. Moreover, asphalt shingles contain other materials, including fibers, fine aggregate and mineral filler, commonly used in asphalt pavements.
